generally prohibits recipients of Federal grants and cooperative agreements from using Federal (appropriated) funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a SPECIFIC grant or cooperative agreement. Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non- appropriated) funds. These requirements apply to grants and cooperative agreements EXCEEDING \$100,000 in total costs.

The undersigned (authorized official signing for the applicant organization) certifies, to the best of his or her knowledge and belief, that

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

generally prohibits recipients of Federal grants and cooperative agreements from using Federal (appropriated) funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a SPECIFIC grant or cooperative agreement. Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non- appropriated) funds. 5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

⁵Prevention other than Primary Prevention

⁶For the purpose of determining which states and jurisdictions are considered "designated states" as described in section 1924(b)(2) of Title XIX, Part B, Subpart II of the Public Health Service Act (42 U.S.C. § 300x-24(b)(2)) and section 45 CFR § 96.128(b) of the Substance Abuse Prevention and Treatment Block Grant (SABG); Interim Final Rule (45 CFR 96.120-137), SAMHSA relies on the HIV Surveillance Report produced by the Centers for Disease Control and Prevention (CDC), National Center for HIV/AIDS, Viral Hepatitis, STD and TB Prevention. The most recent HIV Surveillance Report published on or before October 1 of the federal fiscal year for which a state is applying for a grant is used to determine the states and jurisdictions that will be required to set-aside 5 percent of their respective SABG allotments to establish one or more projects to provide early intervention services regarding the human immunodeficiency virus (EIS/HIV) at the sites at which individuals are receiving SUD treatment services. In FY 2012, SAMHSA developed and disseminated a policy change applicable to the EIS/HIV which provided any state that was a "designated state" in any of the three years prior to the year for which a state is applying for SABG funds with the flexibility to obligate and expend SABG funds for EIS/HIV even though the state's AIDS case rate does not meet the AIDS case rate threshold for the fiscal year involved for which a state is applying for SABG funds. Therefore, any state with an AIDS case rate below 10 or more such cases per 100,000 that meets the criteria described in the 2012 policy guidance would will be allowed to obligate and expend SABG funds for EIS/HIV if they chose to do so.

15. Crisis Services - Required MHBG, Requested SABG

Narrative Question

SAMHSA is directed by Congress through the Consolidated Appropriations Act, 2021 and the Coronavirus Response and Relief Supplement Appropriations Act, 2021 [P.L. 116-260], to set aside 5 percent of the MHBG allocation for each state to support evidence-based crisis systems. The appropriation bill includes the following budget language that outlines the new 5 percent set-aside:

Furthermore, the Committee directs a new five percent set-aside of the total for evidence-based crisis care programs addressing the needs of individuals with serious mental illnesses and children with serious mental and emotional disturbances. The Committee directs SAMHSA to use the set-aside to fund, at the discretion of eligible States and Territories, some or all of a set of core crisis care elements including: centrally deployed 24/7 mobile crisis units, short-term residential crisis stabilization beds, evidence-based protocols for delivering services to individuals with suicide risk, and regional or State-wide crisis call centers coordinating in real time.

A crisis response system will have the capacity to prevent, recognize, respond, de-escalate, and follow-up from crises across a continuum, from crisis planning, to early stages of support and respite, to crisis stabilization and intervention, to post-crisis follow-up and support for the individual and their family. SAMHSA expects that states will build on the emerging and growing body of evidence for effective community-based crisis-intervention and response systems. Given the multi-system involvement of many individuals with M/SUD issues, the crisis system approach provides the infrastructure to improve care coordination and outcomes, manage costs, and better invest resources.

SAMHSA recently developed [Crisis Services: Meeting Needs, Saving Lives](#), which includes “[National Guidelines for Behavioral Health Crisis Care: Best Practice Toolkit](#)” as well as other related National Association of State Mental Health Programs Directors (NASMHPD) papers on crisis services. Please note that this set aside funding is dedicated for the core set of crisis services as directed by Congress. Nothing precludes states from utilizing more than 5 percent of its MHBG funds for crisis services for individuals with SMI or children with SED. If states have other investments for crisis services, they are encouraged to coordinate those programs with programs supported by this new 5 percent set aside. This coordination will help ensure services for individuals are swiftly identified and are engaged in the core crisis care elements.

1. Briefly narrate your state's crisis system. Include a description of access to the crisis call centers, availability of mobile crisis and behavioral health first responder services, utilization of crisis receiving and stabilization centers.

The Department of Mental Health (DMH) continues to innovate and serve as a national leader in mental health services, with services such as healthcare home, Community Behavioral Health Liaisons (CBHL), Emergency Room Enhancement (ERE), Crisis Intervention Team (CIT), Access Crisis Intervention (ACI) and the national demonstration project Certified Community Behavioral Health Organizations (CCBHO). ACI providers are responsible for providing local crisis line coverage, walk-in clinic services, and mobile crisis services. During the past two years, the DMH has worked to create an enhanced crisis system that serves anyone, anywhere, and anytime. Crisis Call Centers: Several of Missouri's behavioral health providers have historically participated in the National Suicide Prevention Lifeline network (NSPL) and/or local crisis services through ACI. Through robust engagement between providers and DMH, Missouri's NSPL membership has expanded from two to seven (six call centers and one text and chat center), lessening the burden on existing centers by spreading out coverage while eliminating service gaps throughout the state. ACI has historically been known as the safety net for Missouri's crisis system. Over the past several years, DMH has worked closely with ACI providers to increase awareness of the NSPL network and increase the total number of ACI providers that are also regional NSPL centers in Missouri. Crisis specialists are used to address immediate needs, stabilize/de-escalate, make referrals for ongoing care, and offer follow-up services. NSPL centers begun answering calls for their assigned county coverage for 988, and ACI providers will continue answering local lines. Mobile Crisis Response: Missouri's primary resource for mobile crisis response is coordinated by ACI/CCBHO providers, many of which also have CBHLs who work with law enforcement. Currently, ACI provides access to services for individuals experiencing a behavioral health crisis. ACI provides necessary behavioral health crisis services in an effort to reduce unnecessary interventions such as hospitalization or detentions. By contacting the ACI hotline or 988, individuals have access to behavioral health crisis services if the crisis situation is not resolved. Behavioral Health Crisis Centers: To assist individuals in crisis and reduce the pressure on law enforcement to also be mental health professionals, Behavioral Health Crisis Centers (BHCC) are available to triage, assess, provide immediate care, and refer to community resources. Law enforcement, hospitals, and Mobile Crisis Response providers can now refer and direct individuals to proper assessment and treatment services, diverting from unnecessary jail and emergency room visits to a safe place where mental health staff can stabilize the current crisis. Ten BHCCs, out of the planned eighteen, are serving individuals who need crisis stabilization services. Community Behavioral Health Liaisons: The CBHL positions were launched in 2013 as part of the Strengthening Missouri's Mental Health Initiative. CBHLs are actively working in Community Behavioral Health Clinics (CCBHCs) across the state to assist law enforcement and courts to link individuals with behavioral health needs to appropriate treatment. Emergency Room Enhancement: The

success of the ERE program is due to teamwork, partnership, and collaboration among multiple agencies, hospitals, law enforcement, outreach workers, case managers and researchers. This holistic, wrap-around care model improves the health and well-being of individuals in the program, while reducing ER visits. The Missouri Department of Mental Health provides funding to regions in the state for the ERE. Crisis Intervention Team: The CIT program is a partnership between law enforcement, behavioral health providers, hospitals, courts, individuals with lived experience and community partners who are dedicated to implementing the Missouri model of CIT. The goals of the CIT are to implement a training model for law enforcement, connect individuals in crisis to resources to avoid criminal justice involvement and/or unnecessary ER visits, and reduce stigma. Of the 114 counties in Missouri, CIT training has occurred in 105 of them and receives approximately 16,000 referrals per year.

2. In accordance with the guidelines below, identify the stages where the existing/proposed system will fit in.

- a) *The Exploration stage: is the stage when states identify their communities's needs, assess organizational capacity, identify how crisis services meet community needs, and understand program requirements and adaptation.*
- b) *The Installation stage: occurs once the state comes up with a plan and the state begins making the changes necessary to implement the crisis services based on the SAMHSA guidance. this includes coordination, training and community outreach and education activities.*
- c) *Initial Implementation stage: occurs when the state has the three-core crisis services in place and agencies begin to put into practice the SAMHSA guidelines.*
- d) *Full Implementation stage: occurs once staffing is complete, services are provided, and funding streams are in place.*
- e) *Program Sustainability stage: occurs when full implementation has been achieved, and quality assurance mechanisms are in place to assess the effectiveness and quality of the crisis services.*

b. Briefly explain your stages of implementation selections here.

Someone to talk to: Currently, Missouri has dedicated providers who answer crisis calls, and as of July 2022, six NSPL call centers are be answering 988 calls. These lines range in service delivery from suicide hotlines across the State with some providing 24/7 coverage. In addition, Missouri will begin offering text/chat statewide beginning in September 2022. These call centers coordinate with ACI providers, who ultimately determine mobile crisis dispatch or other needed services such as services at a BHCC. Someone to respond: Missouri primarily offers three different types of services to individuals outside of outpatient clinics and in the community. Outside of Mobile Crisis Response, the closest to this service is the CBHL model where a Behavioral Health Professional is working with law enforcement. The Emergency Room Enhancement (ERE) is more hospital based and provides ongoing short-term care to individuals released from an Emergency Department (ED) setting. Missouri's primary resource for mobile crisis response is through ACI providers, many of which also have CBHLs who work with law enforcement. Mobile Crisis Response services in the community are limited in some regions of the state in comparison to SAMHSA recommendations. Over time, ACI providers have turned Mobile Crisis Response into many different things across Missouri to meet the needs of individuals in crisis in their catchment areas. They have utilized staff to wear many hats in an effort to meet as many community needs as necessary through the ACI program, CBHLs, and ERE. Recently, state funding has been allocated to Mobile Crisis Response providers to enhance and expand this service with a goal of offering community-based intervention to individuals in need wherever they are; including at home, work, or anywhere else in the community where the person is experiencing a crisis. Place to go: Missouri has invested in the expansion of crisis stabilization services to expand to 18 Crisis Stabilization (23-hour) Units geographically dispersed throughout the state. This expansion of service capacity and accessibility will greatly improve the continuum of crisis services offered across the state. Many facilities included exclusionary criteria, but some of these facilities still accept law enforcement

drop offs and then get the individual to a facility where they can be seen. DMH is spearheading the launch of several Crisis Stabilization Units across the state to meet the needs of Missourians. The addition of facilities across the State is currently in progress; 10 of the 18 are currently in operation.

3. Based on SAMHSA's National Guidelines for Behavioral Health Crisis Care, explain how the state will develop the crisis system.

The following areas will be considered as Missouri continues to develop a robust crisis system: • 24/7/365 availability to maximize an individual's access to crisis services during their time of need and accept all referrals; • Ensuring crisis system providers setting goals/benchmarks that provide insight to timely service delivery and quality control; • Customer satisfaction surveys conducted to understand customer experience satisfaction levels; • Use of evidence-based screening or assessment tools; • Implementation of bed management software that allows the community and other providers to know where there is availability of services; • Enhancement of "No-Wrong-Door" access across regional crisis call centers, mobile crisis response teams, and receiving and crisis stabilization facilities; • Creation of additional data collection fields to help inform access issues, provider training needs, and gaps in services; • Standardized, evidence-based training; • Warm transfers and follow-up that ensure the individual in crisis remains in contact with a service provider; • Updating staffing qualifications to assist with workforce shortages; • Incorporating Certified Peer Specialists into crisis services delivery;

4. Briefly describe the proposed/planned activities utilizing the 5 percent set aside.

The 5 percent set aside will be used to: • enhance mobile crisis response, concentrating on rural areas of the state • explore implementation of and pilot crisis residential programming

21. State Planning/Advisory Council and Input on the Mental Health/Substance Abuse Block Grant Application- Required for MHBG

Narrative Question

Each state is required to establish and maintain a state Mental Health Planning/Advisory Council to carry out the statutory functions as described in 42 U.S. C. 300x-3 for adults with SMI and children with SED. To meet the needs of states that are integrating services supported by MHBG and SABG, SAMHSA is recommending that states expand their Mental Health Advisory Council to include substance misuse prevention, treatment, and recovery representation, referred to here as an Advisory/Planning Council (PC). SAMHSA encourages states to expand their required Council's comprehensive approach by designing and implementing regularly scheduled collaborations with an existing substance misuse prevention, treatment, and recovery advisory council to ensure that the council reviews issues and services for persons with, or at risk, for substance misuse and SUDs. To assist with implementing a PC, SAMHSA has created [Best Practices for State Behavioral Health Planning Councils: The Road to Planning Council Integration](https://www.samhsa.gov/sites/default/files/manual-planning-council-best-practices-2014.pdf).⁶⁹

Planning Councils are required by statute to review state plans and implementation reports; and submit any recommended modifications to the state. Planning councils monitor, review, and evaluate, not less than once each year, the allocation and adequacy of mental health services within the state. They also serve as an advocate for individuals with M/SUD problems. SAMHSA requests that any recommendations for modifications to the application or comments to the implementation report that were received from the Planning Council be submitted to SAMHSA, regardless of whether the state has accepted the recommendations. The documentation, preferably a letter signed by the Chair of the Planning Council, should state that the Planning Council reviewed the application and implementation report and should be transmitted as attachments by the state.

⁶⁹<https://www.samhsa.gov/sites/default/files/manual-planning-council-best-practices-2014.pdf>

Please consider the following items as a guide when preparing the description of the state's system:

1. How was the Council involved in the development and review of the state plan and report? Please attach supporting documentation (meeting minutes, letters of support, etc.) using the upload option at the bottom of this page.

- a) What mechanism does the state use to plan and implement substance misuse prevention, SUD treatment and recovery services?

As of 2018, Missouri's two separate planning councils merged into one planning council with two subcommittees. The State Advisory Council on Alcohol and Drug Abuse (SAC-ADA) and State Advisory Council on Comprehensive Psychiatric Services (SAC-CPS) merged to become the Division of Behavioral Health State Advisory Council (SAC). The SAC consists of up to 32 members who have a professional, research, or personal interest in prevention, recovery, evaluation, treatment rehabilitation, and system of care for children/youth with serious emotional disturbance and persons affected by behavioral health disorders and their families. The SAC shall include service providers, consumers (recipients of services or family members of recipients), and other interested citizens. The SAC shall include representatives from non-government organizations or groups and state agencies concerned with the planning, operation or use of behavioral health services; individuals with mental health and/or substance use disorders who are receiving or have received behavioral health services and who are familiar with the need for such services; and family members of adults with mental health and/or substance use disorders or families of children with emotional disturbance. At least one member shall represent veterans and military affairs. At least one-half of the members of the SAC shall be recipients of behavioral health services or family members of recipients. No more than one-half of the members of SAC shall be providers as defined as an entity/service delivery system, which uses, purchases and/or coordinates with mental health, substance use, or developmental disabilities services provided by contracts with the Department of Mental Health. Representatives of state agencies responsible for mental health, education, vocation rehabilitation, criminal justice, housing, social services and Medicaid are mandated. Membership terms are three years and a member may serve an additional three year term if nominated and approved by the SAC and the Division Director. The SAC shall recognize two standing committees, the Mental Health Disorders Committee and the Substance Use Disorders Committee. The purpose of these committees is to ensure adequate representation and focus on the issues unique to each committee. The co-chairpersons of these standing committees shall equally share the leadership of the full SAC. The mission of the SAC is to advise the Division of Behavioral Health in the development, funding, prevention, public understanding and coordination of specialized services to meet the needs of Missourians with mental health and substance use disorders. In order to accomplish this mission the SAC shall collaborate with the DBH to develop and review the state plans for delivering behavioral health services pursuant to Title 42, 300x-3 (Federal statute) and CSR 631.020.8.; advise DBH in the development of models of services and long range planning and budgeting priorities; identify statewide needs and recommend what specific methods, means, and procedures should be adopted to improve and upgrade the behavioral health service delivery system for citizens of this state; provide education and information about mental health and substance use; monitor, evaluate, and review the allocation and adequacy of behavioral health services within the state; and provide oversight for suicide prevention activities.

b) Has the Council successfully integrated substance misuse prevention and treatment or co-occurring disorder issues, concerns, and activities into its work? ☒ Yes ☐ No

2. Is the membership representative of the service area population (e.g. ethnic, cultural, linguistic, rural, suburban, urban, older adults, families of young children)? ☒ Yes ☐ No

3. Please describe the duties and responsibilities of the Council, including how it gathers meaningful input from people in recovery, families, and other important stakeholders, and how it has advocated for individuals with SMI or SED.

The SAC provides a diverse perspective on the prevention and treatment of substance use and mental health. SAC meetings include updates, presentations, and discussions from the Division of Behavioral Health (DBH) Director and/or his representative and section heads from prevention, treatment, and fiscal units. In addition, the SAC receives regular briefings and feedback from the Missouri National Alliance on Mental Illness, Missouri Protection & Advocacy, and Children's Services. The SAC also receives regular briefings from the Missouri Credentialing Board on matters pertaining to professional credentialing and workforce development.

Additionally, the SAC serves as an advocate for adults with serious mental illness, children with severe emotional disturbance, and other individuals with mental illness or emotional problems. SAC advocacy activities include promoting the Consumer/Family/Youth Conference as well as Peer Specialist training and certification. Through this process, consumers can learn to identify their strengths and personal resources, learn to make independent choices, and take a proactive role in their treatment. The SAC coordinates recommendations on behavioral health services, including recommendations for Missouri's FY 2020-2021 Behavioral Health Assessment and Plan and the State Suicide Prevention Plan. In addition to the regular briefings, the

SAC has been audience to presentations from numerous experts in areas from cultural competency, to Missouri public administrators and guardianship, the Missouri Opioid State Targeted Response and State Opioid Response Projects, and the impact of COVID and attitudes.

The SAC currently has two project committees which address special issues identified by the SAC or the DBH as topics relevant to the SAC purpose, authority or to the Behavioral Health delivery system. The Children and Family Committee is focused on enhancing services for family members of children/youth. The Outcomes Committee is focused on current state-wide data for family therapy services.

Real Voices Real Choices is the annual consumer conference to educate, inform, and empower individuals in treatment and/or recovery and their families. This conference developed from Missouri's Mental Health Transformation Grant, a SAMHSA-funded grant that ended in 2011. The 2022 conference will be held in-person in August. The SAC encourages and fosters the advancement of this annual event.

The SAC endorses the Missouri's Mental Health Champions – an effort to recognize the accomplishments of individuals whose lives have been challenged by mental illness, substance use disorders, and/or developmental disabilities. The 2022 Mental Health Champion awards ceremony and banquet was held on May 3rd at the Capitol Plaza Hotel in Jefferson City.

Please indicate areas of technical assistance needed related to this section.

⁷⁰There are strict state Council membership guidelines. States must demonstrate: (1) the involvement of people in recovery and their family members; (2) the ratio of parents of children with SED to other Council members is sufficient to provide adequate representation of that constituency in deliberations on the Council; and (3) no less than 50 percent of the members of the Council are individuals who are not state employees or providers of mental health services.

Dear Grants Management Officer:

The State Advisory Council for the Missouri Department of Mental Health, Division of Behavioral Health (DBH), has reviewed the state's FY2022 – 2023 Behavioral Health Block Grant State Plan – which combines plans for both mental health and substance use disorders. The State Advisory Council is committed to working with the DBH to create a well-integrated system of care that implements evidence-based practices and incorporates a focus on recovery. The State Advisory Council had many months to develop, review, discuss, and make recommendations regarding the Behavioral Health Block Grant State Plan. The Council met June 2, 2021, and voted to approve Missouri's final State Plan, written under our guidance.

We will continue to work with the DBH monitoring the implementation of the State Plan. We appreciate our involvement in the Block Grant planning development. We would like to express appreciation to SAMHSA for making these funds available.

The State Advisory Council to the Missouri Department of Mental Health is an integrated advisory council made of up representative not only of those with personal and/or familial experience with mental illness but also of personal and/or familial experience with substance use disorders. The integration of these two councils was completed several years ago with the assistance of SAMHSA. The eight members of the council that are reported at the bottom of this page as "Persons in recovery from or providing treatment for or advocating for SUD services" are full members of the State Advisory Council in the same manner that those listed as "Individuals in Recovery* (to include adults with SMI

who are receiving, or have received, mental health services)" are members of the State Advisory Council. Their perspective, experiences and input are valued in the same manner as those representing SMI/SED. Missouri has a total of 32 members on the State Advisory Council and does not currently have any vacancies.

22. Public Comment on the State Plan - Required

Narrative Question

[Title XIX, Subpart III, section 1941 of the PHS Act \(42 U.S.C. § 300x-51\)](#) requires, as a condition of the funding agreement for the grant, states will provide an opportunity for the public to comment on the state block grant plan. States should make the plan public in such a manner as to facilitate comment from any person (including federal, tribal, or other public agencies) both during the development of the plan (including any revisions) and after the submission of the plan to SAMHSA.

Please respond to the following items:

1. Did the state take any of the following steps to make the public aware of the plan and allow for public comment?
- a) Public meetings or hearings? ☐ Yes ☒ No
- b) Posting of the plan on the web for public comment? ☒ Yes ☐ No
- If yes, provide URL:
<https://dmh.mo.gov/behavioral-health/block-grant>
- If yes for the previous plan year, was the final version posted for the previous year? Please provide that URL:
<https://dmh.mo.gov/behavioral-health/block-grant>
- c) Other (e.g. public service announcements, print media) ☐ Yes ☒ No

23. Syringe Services (SSP)

Narrative Question:

The Substance Abuse Prevention and Treatment Block Grant (SABG) restriction^{1,2} on the use of federal funds for programs distributing sterile needles or syringes (referred to as syringe services programs (SSP)) was modified by the [Consolidated Appropriations Act](#), 2018 (P.L. 115-141) signed by President Trump on March 23, 2018³.

Section 520. Notwithstanding any other provisions of this Act, no funds appropriated in this Act shall be used to purchase sterile needles or syringes for the hypodermic injection of any illegal drug: Provided, that such limitation does not apply to the use of funds for elements of a program other than making such purchases if the relevant State or local health department, in consultation with the Centers for Disease Control and Prevention, determines that the State or local jurisdiction, as applicable, is experiencing, or is at risk for, a significant increase in hepatitis infections or an HIV outbreak due to injection drug use, and such program is operating in accordance with State and local law.

A state experiencing, or at risk for, a significant increase in hepatitis infections or an HIV outbreak due to injection drug use, (as determined by CDC), may propose to use SABG to fund elements of an SSP other than to purchase sterile needles or syringes. States interested in directing SABG funds to SSPs must provide the information requested below and receive approval from the State Project Officer. Please note that the term used in the SABG statute and regulation, *intravenous drug user* (IVDU) is being replaced for the purposes of this discussion by the term now used by the federal government, *persons who inject drugs* (PWID).

States may consider making SABG funds available to either one or more entities to establish elements of a SSP or to establish a relationship with an existing SSP. States should keep in mind the related PWID SABG authorizing legislation and implementing regulation requirements when developing its Plan, specifically, requirements to provide outreach to PWID, SUD treatment and recovery services for PWID, and to routinely collaborate with other healthcare providers, which may include HIV/STD clinics, public health providers, emergency departments, and mental health centers⁴. SAMHSA funds cannot be supplanted, in other words, used to fund an existing SSP so that state or other non-federal funds can then be used for another program.

In the first half of calendar year 2016, the federal government released three guidance documents regarding SSPs⁵: These documents can be found on the Hiv.gov website: <https://www.hiv.gov/federal-response/policies-issues/syringe-services-programs>,

1. **Department of Health and Human Services Implementation Guidance to Support Certain Components of Syringe Services Programs, 2016** from The US Department of Health and Human Services, Office of HIV/AIDS and Infectious Disease Policy <https://www.hiv.gov/sites/default/files/hhs-ssp-guidance.pdf> ,
2. **Centers for Disease Control and Prevention (CDC) Program Guidance for Implementing Certain Components of Syringe Services Programs, 2016** The Centers for Disease Control and Prevention, National Center for HIV/AIDS, Viral Hepatitis, STD and TB Prevention, Division of Hepatitis Prevention <http://www.cdc.gov/hiv/pdf/risk/cdc-hiv-syringe-exchange-services.pdf>,
3. **The Substance Abuse and Mental Health Services Administration (SAMHSA)-specific Guidance for States Requesting Use of Substance Abuse Prevention and Treatment Block Grant Funds to Implement SSPs** <http://www.samhsa.gov/sites/default/files/grants/ssp-guidance-state-block-grants.pdf> ,

Please refer to the guidance documents above and follow the steps below when requesting to direct FY 2021 funds to SSPs.

- **Step 1** - Request a Determination of Need from the CDC
- **Step 2** - Include request in the FFY 2021 Mini-Application to expend FFY 2020 - 2021 funds and support an existing SSP or establish a new SSP
 - Include proposed protocols, timeline for implementation, and overall budget
 - Submit planned expenditures and agency information on Table A listed below
- **Step 3** - Obtain State Project Officer Approval

Future years are subject to authorizing language in appropriations bills.

¹ Section 1923 (b) of Title XIX, Part B, Subpart II of the PHS Act (42 U.S.C. § 300x-23(b)) and 45 CFR § 96.126(e) requires entities that receive SABG funds to provide substance use disorder (SUD) treatment services to PWID to also conduct outreach activities to encourage such persons to undergo SUD treatment. Any state or jurisdiction that plans to re-obligate FY 2020-2021 SABG funds previously made available such entities for the purposes of providing substance use disorder treatment services to PWID and outreach to such persons may submit a request via its plan to SAMHSA for the purpose of incorporating elements of a SSP in one or more such entities insofar as the plan request is applicable to the FY 2020-2021 SABG funds **only** and is consistent with guidance issued by SAMHSA.

² Section 1931(a)(1)(F) of Title XIX, Part B, Subpart II of the Public Health Service (PHS) Act (42 U.S.C. § 300x-31(a)(1)(F)) and 45 CFR § 96.135(a) (6) explicitly prohibits the use of SABG funds to provide PWID with hypodermic needles or syringes so that such persons may inject illegal drugs unless the Surgeon General of the United States determines that a demonstration needle exchange program would be effective in reducing injection drug use and the risk of HIV transmission to others. On February 23, 2011, the Secretary of the U.S. Department of Health and Human Services published a notice in the Federal Register (76 FR 10038) indicating that the Surgeon General of the United States had made a determination that syringe services programs, when part of a comprehensive HIV prevention strategy, play a critical role in preventing HIV among PWID, facilitate entry into SUD treatment and primary care, and do not increase the illicit use of drugs.

³ Division H Departments of Labor, Health and Human Services and Education and Related Agencies, Title V General Provisions, Section 520 of the Consolidated Appropriations Act, 2018 (P.L. 115-141)

⁴ Section 1924(a) of Title XIX, Part B, Subpart II of the PHS Act (42 U.S.C. § 300x-24(a)) and 45 CFR § 96.127 requires entities that receives SABG funds to routinely make available, directly or through other public or nonprofit private entities, tuberculosis services as described in section 1924(b)(2) of the PHS Act to each person receiving SUD treatment and recovery services.

Section 1924(b) of Title XIX, Part B, Subpart II of the PHS Act (42 U.S.C. § 300x-24(b)) and 45 CFR 96.128 requires "designated states" as defined in Section 1924(b)(2) of the PHS Act to set- aside SABG funds to carry out 1 or more projects to make available early intervention services for HIV as defined in section 1924(b)(7)(B) at the sites at which persons are receiving SUD treatment and recovery services.

Section 1928(a) of Title XXI, Part B, Subpart II of the PHS Act (42 U.S.C. 300x-28(c)) and 45 CFR 96.132(c) requires states to ensure that substance abuse prevention and SUD treatment and recovery services providers coordinate such services with the provision of other services including, but not limited to, health services.

⁵ ***Department of Health and Human Services Implementation Guidance to Support Certain Components of Syringe Services Programs, 2016*** describes an SSP as a comprehensive prevention program for PWID that includes the provision of sterile needles, syringes and other drug preparation equipment and disposal services, and some or all the following services:

- Comprehensive HIV risk reduction counseling related to sexual and injection and/or prescription drug misuse;
- HIV, viral hepatitis, sexually transmitted diseases (STD), and tuberculosis (TB) screening;
- Provision of naloxone (Narcan?) to reverse opiate overdoses;
- Referral and linkage to HIV, viral hepatitis, STD, and TB prevention care and treatment services;
- Referral and linkage to hepatitis A virus and hepatitis B virus vaccinations; and
- Referral to SUD treatment and recovery services, primary medical care and mental health services.

Centers for Disease Control and Prevention (CDC) Program Guidance for Implementing Certain Components of Syringe Services Programs, 2016 includes a [description of the elements of an SSP](#) that can be supported with federal funds.

- Personnel (e.g., program staff, as well as staff for planning, monitoring, evaluation, and quality assurance);
- Supplies, exclusive of needles/syringes and devices solely used in the preparation of substances for illicit drug injection, e.g., cookers;
- Testing kits for HCV and HIV;
- Syringe disposal services (e.g., contract or other arrangement for disposal of bio- hazardous material);
- Navigation services to ensure linkage to HIV and viral hepatitis prevention, treatment and care services, including antiretroviral therapy for HCV and HIV, pre-exposure prophylaxis, post-exposure prophylaxis, prevention of mother to child transmission and partner services; HAV and HBV vaccination, substance use disorder treatment, recovery support services and medical and mental health services;

- Provision of naloxone to reverse opioid overdoses
- Educational materials, including information about safer injection practices, overdose prevention and reversing an opioid overdose with naloxone, HIV and viral hepatitis prevention, treatment and care services, and mental health and substance use disorder treatment including medication-assisted treatment and recovery support services;
- Condoms to reduce sexual risk of sexual transmission of HIV, viral hepatitis, and other STDs;
- Communication and outreach activities; and
